Board Chair Report 2020

Board Chair – Nicola Compton

So here we are at the end of another netball season and what a strange season it has been due to Covid-19 lockdowns and restrictions!

I am pleased to say though, that with a lot of planning and extra work behind the scenes we were able to deliver most of our competitions and programmes. To the Centre's staff thank you so much for all your endless hours making sure we could operate safely and provide netball to our community.

To the Board, thank you for giving your time and expertise to the Centre not only as Board members but also as volunteers this season. As Board members we strive to maintain the Centre's values – innovative, inclusive, passionate and respectful - at all times, as we work towards the Centre's strategic goals of;

- **Providing pathways to enable individuals to enjoy and succeed in netball**
- **Having a quality Centre with effective links to clubs, schools and community**
- **Attracting and retaining staff and the volunteer base**
- **Having desirable multi-purpose facilities**
- **An organisation that provides positive netball experiences**

There is still work to be done, but I am confident we can make good progress next year and beyond.

To our volunteers, you know who you are, I cannot thank you enough for what you do for the Centre. You are the cornerstone of the Centre and without you we would be unable to deliver netball to the community.

And so, to the future.... It is becoming increasingly difficult to secure grants, funding and sponsorship and with the current state of things in NZ and the world it is only going to get harder. As an organisation we are going to have work smarter to be sustainable. There are opportunities to optimise the use of our facility, however, this will take some work to upgrade the building to achieve this. Our next step is to look towards refurbishing the building, so watch this space!

Finally, thank you to all our members who supported the Centre in this difficult year. It was such a pleasure seeing netball being played, coaches coaching and umpires umpiring during a time when there wasn't too much to be excited about!

Centre Manager's Report 2020

Centre Manager – Tracy Walters

Well this has been a season like no other!

I have so many thankyou's and that is an understatement.

With so many uncertainties this year, it has proved to be a real challenge and I acknowledge the challenges many of our netball community would have experienced either in their personal lives, work lives and including the adaption to netball life during 2020. I am really happy we were able to continue with most of our competitions this season and that everyone was just excited to play.

Thank you to the funding organisations that have supported our centre. Without this great financial support, we would most definitely have struggled to stay on top of things and I am sure, we as a community appreciate this very much.

Thank you to all our members and supporters for all your support and positive energy. It cannot have been easy with the constant change to competitions, the rules and processes that came out of operating under the defined levels and most of all staying engaged with what the netball centre was able to offer through this season. It is much appreciated that you followed the directions and initiatives that were instructed, we have a great community and you should be proud.

Thank you to our Harbourside Netball Centre board who I have found to be so positively progressive. The knowledge and experience you all have is commendable and I am so grateful to have you guiding the way and developing me within my role to ensure Harbourside Netball Centre is recognised as a Netball Centre focused on continuous improvement and servicing the netball community in our region.

Our umpire coaches and umpires are true athletes with a skill that I have learnt is more than just running up and down the court managing a game. The effort these people put in to their own individual ongoing development and the continual development of others needs to be acknowledged as one of the most important aspects of our operation. As a past player and coach I never really valued this group of people as I should, however I have definitely changed my outlook and cannot wait to continually support this group of people. A special thank you to Maree our umpire co-ordinator who does a great job managing the logistics that comes with this role.

Thank you to the Waikato/Bay of Plenty Zone for ensuring we receive ongoing communication and support. Your continued guidance throughout Covid was very valuable and I felt supported the whole way.

A special mention for our Future Ferns Co-ordinator Wendy Bell who has again been the brains behind the operation and has continually added new initiatives and ideas to a competition that we struggled to roll out completely under level 2.

Thank you to Deb Fuller for facilitating our 2019/2020 TECT programme which resulted in 29 girls from our region being selected for the Zone 2020 performance squads. The most we have seen for quite some time. We are very lucky to have Deb as a coach in our region, influencing our young netballers and teaching them all aspects of being a top athlete.

And finally, to our volunteers, you guys are really the backbone to all we do. During covid you stepped up a few more steps and pretty much made us operational. A real big acknowledgement to the following people who we feel so supported by and ensured we could operate under level 2. Nicki Compton, Maree Body, Christine Healy (Hobbi) Lynne Clay, Rick Powdrell, Rose Powdrell, Annette Friel, Isobel Beatson, Paula Vickers, Pauline McFadyen, Louise Turner and Wendy Bell, you guys rock and we (Tania and I) are so grateful for your help over the season.

As we move into the summer months there will be continued planning and some relaxing in the sun. I wish you all a safe and relaxing Summer Season and look forward to seeing you all again in 2021.

Umpire Co-ordinator's Report

Umpire Co-ordinator – Maree Body

Wow, what a season we have had, but at least we did get a season. I guess we take it for granted that each year over the winter months we all get to play, umpire, coach, volunteer at our favourite places – our local netball courts. Unfortunately, this year, Covid-19 came to play instead.

Although, our season was delayed, because of lockdown, and then slowly moving down the levels until we could safely get together and were able to start our competitions, we were still able to work with our umpires at their various levels, and present some of the workshops that we had planned.

This year we renamed our beginner levels umpires workshops to LTU – Learning to Umpire – and aimed them at Intermediate Aged Umpires, College Aged Umpires and Adult Umpires, so we could give each group of umpires information specific to the level of game they were expected to umpire. We planned to have the Intermediate Aged Umpires learning to umpire on our Year 5 and 6 games (the most challenging games) and gain their Harbourside LTU Certificate, while the College Aged Umpires we wanted to be umpiring the Year 7 and 8 competitions and be able to work towards their Centre Umpire Award. Our Adult Umpire workshops were targeted to new umpires needing to complete their Centre Award on our Wednesday night Senior competition, although we also welcomed the Mums and Dads who umpire their children's games as well.

The College Aged Umpire Workshops were luckily able to be completed before lockdown, but the Intermediate and Adult Umpire workshops had to be delayed until we reached Level 1. We were inundated with eager young Intermediate Aged Umpires, most of whom were able to secure teams from the 5/6 competition to umpire. With a hesitant start, they all started showing some promise to earning their Certificates, but unfortunately Covid-19 struck again and with the Level 2 restrictions we were unable to safely run the Year 1 to 6 games, without spectators (or parents to look after their children) due to the restrictions of maximum 100 people at a gathering, therefore we had to suspend those games for the season, and unfortunately that meant our young Umpires had no games to umpire and were unable to complete their umpiring journey towards gaining their Harbourside LTU Certificate.

With our Wednesday Senior competition severely depleted of teams, we had no takers for the Adult LTU workshops, so they were canned. But the College Aged Umpires were able to go ahead and umpire in the Intermediate Year 7 and 8 competitions and be coached towards gaining their Centre Awards, despite the Umpire Coaches having to perform other duties and man the gates when the second level of restrictions returned, we were eventually able to do some umpire coaching, and a respectable number of umpires were rewarded by being presented with their Centre Badges.

A huge thanks must be extended to those Umpire Coaches who gave up their time at the Harbourside courts every Wednesday, Friday, and Saturday to coach these young umpires. Christine Healey, Rose Powdrell, Lynne Clay, and Nicki Compton, thank you so much for the amazing job you did, with all your "hats" on, and the massive amount of time you gave to Harbourside to impart your knowledge to our up and coming umpires to help them increase their skills and be able to competently umpire their games and achieve their goals.

Our Premier competition on Thursday nights, once again we ran with 24 teams and 4 grades with 6 teams in each. The teams were asked to find and supply at least a Zone Theory or upwards qualified umpire, and to provide their Umpire with remuneration to help with the expenses they incurred each week. Our regular umpires were snapped up by the teams and it was great to see our Zone and NZ qualified umpires back for the season, we also had some newly qualified young umpires step up to this competition. It was a baptism by fire for some of them at the start learning how to control the games at a higher level of skill, but it was exciting to see them manage these games well, and most of the teams accepted the decisions their umpires made during the games with the appropriate manner, unfortunately some teams thought they could test the umpires skill with their lack of discipline which is not an acceptable way to play at any level of the game.

This is an excerpt from the 2020 INF International Rule Book – although it has always been in the rule book – I think it is important for Coaches, Players, Umpires, and any other Netball supporter to be aware of

- *It is the responsibility of players to ensure that they are physically and technically prepared in a manner that enables them to play the Game, comply with the Rules and participate safely in a sporting and fair manner. This includes responding to rulings made by the umpires and adjusting play accordingly.*
- *It is the responsibility of those who coach or teach the Game to ensure that players are prepared in a manner that ensures compliance with the Rules of the Game as well as an understanding of both sporting behaviour and safe practices.*
- *It is the responsibility of umpires to apply the Rules of the Game with impartiality, fairness, and consistency.*
- *It is the responsibility of controlling bodies at all levels to ensure that the Game is conducted and developed in accordance with disciplined and sporting behaviour.*

Basically, players need to accept the rulings made by the umpires whether right or wrong and adjust their play accordingly. It is not the umpires' job to continuously keep penalising players for the same infringement, players need to change how they play otherwise the umpires do need to apply the Game Management rules. It is a very contentious issue and one we hope to address next year with planned meetings with Team Officials before the start of each competition to discuss rules, and the applications of the rules they need to understand and comply with, so the

games are played in a manner that complies with good sportsmanship and in “the spirit of the game”.

With the re-emergence of Covid-19 during our late season, and having to go back to Level 2 restrictions, we had to ask the umpires on Wednesday, Friday, and Saturdays to register upstairs, and stay upstairs until their games so we could maintain social distancing and the correct number of people in the various court areas. As the weeks went by at this level, the umpires got used to this new system, and we found it was also a great way to be able to connect with Umpires we would not normally see during the season. The Umpires were asked to go to the courts with their Co-Umpire and complete the team checks together (while social distancing from the teams), this worked really well as they started to connect with each other, a great atmosphere had developed upstairs and some umpires gained some newfound friends. We – the Umpire Coaches – found this time invaluable also, as we were able to hold impromptu workshops, and ask and answer any queries the umpires had from their games. This definitely is a system we are going to keep in place for the seasons to come, we are already starting to work on the best timings to have between games so we can manage this.

So despite Covid-19 we did have some Umpires gain qualifications or be endorsed to keep their qualifications current, all up we had 11 Centre Theory passes, 12 Centre Practical Award Umpires including 3 endorsements, 7 successful Zone Theory passes, 4 Harbourside Umpires reach the Zone Practical – 1 being a new Award and 3 were endorsements, we were also able to help out our mates at the Whakatane Centre by coaching 2 of their umpires to gain their Zone Practical Award and 2 to be Endorsed for their Zone Practical – and we also had 3 umpires successfully sit their NZ Theory. So, it was great to see a new batch of umpires joining our ranks, slowly we are getting a new contingent of umpires eager to join us on the “umpires’ pathway”. It does take a lot of work to help them hone their skills, to get them to recognise how to improve and work out which of the techniques they need to develop to get them umpiring competently to attain their new qualifications or just to keep themselves current. This season we had to contend with another new rule book which clarified some of the more confusing rules and welcomed improved interpretations about the processes to apply the “game management” rulings better.

Congratulations to all those umpires who were successful in your endeavours, look forward to seeing you travel further up the “umpires’ pathway” in the years to come. Thanks Rose, Lynne, and Christine for your continued dedication to our Centre and coordinating the Umpire coaching process for the NZ, Zone, and Centre umpires. You have strong and robust systems in place, which were put under pressure this season with Covid-19, but you all were able to successfully get the Umpire Coaches who were available this year organised to coach and support our umpires. Your ability to encourage umpires to recognise their skills and move onto the “Umpires Pathway” is not only due to your great passion for Umpiring and all it involves, but also your wise and welcoming natures which inspire our Umpires to go further.

Also, Congratulations to the Umpires who were recognised for their umpiring expertise. This season we awarded Hannie Mastny our “Emerging Umpire” award,

Gemma Groenwald our “Most Promising Umpire” award , and Amanda Thompson our “Supreme Umpire” award. Well done all of you, who despite our topsy turvy season, sharpened your umpiring skills on the various games you did and which allowed us to see the growth you had made over the year.

So, finally a huge thankyou to everyone who has contributed to our various competitions and tournaments, also for our semi-finals and finals, by umpiring at the Harbourside netball courts this season. We very much value the time you give to our Netball Centre to officiate the many games played during our season. Whether you do this because of a passion for the game of netball or just because you have to for your school, or for the love of your children who are playing, your time spent with us at Harbourside is very much appreciated and we hope to see you all again next season.

Keep safe over the off season - remember to keep social distancing and **wash your hands** - enjoy the holidays (if you get some) with your families and friends and keep fit and well.

GO THE WHITE TEAM!

Team Leaders' Reports

Centre Umpire Panel – Christine Healey (aka Hobbi)

What an extraordinary year 2020 has been.

Because of COVID restrictions, we on the umpires panel multi tasked and became gatekeepers, therefore not as much coaching and assessing was achieved this year.

Again I need to thank my fellow panel members Maree, Nicki, Rose, Lynne & Brendon, the time you have volunteered has been invaluable.

I would like to acknowledge all the extra work & effort both Tracy & Tania have done this year, so we could all have a netball season & remain safe.

It could have been a very stressful season on the courts, but we have been surprised at the mostly relaxed atmosphere.

At the start of 2020 several LTU (Learn To Umpire) workshops were held.

2 for college students to enable them to umpire years 7 & 8. Several of these girls went on to pass their centre badge.

Another 2 for Intermediate students to enable them to umpire the 6-a-side years 5 & 6. However, because COVID forced the cancellation of the years 5 & 6 competition, these umpires were unable to complete their training.

We will be offering these girls a refresher LTU workshop and continued coaching, to gain their certificate. This will be at no charge.

The planned adult LTU was cancelled due to COVID, but we look forward to seeing all those interested next year.

Congratulations to our new Centre Umpires for 2020.

Enjoy your summer, and see you all in 2021.

NZ Umpire Panel – Rose Powdrell

The 2020 netball season has been a challenging year for Harbourside Thursday Premier Netball Competition, with the competition being changed to four grades with six teams in each and then Covid. Netball stopped and then restarted with no spectators or umpire coaches. We were fortunate due to numbers once Harbourside had things running smoothly that umpire coaches could come back and support our umpires. The umpire group has continued to develop as we had a mixture of youth and experience umpiring this competition. It is always exciting to see the young umpires step up and gain experience at this level. We are also very appreciative of the dedicated umpires who travel regularly from Whakatane.

We are delighted to have four umpires pass their NZ Theory.

Due to Covid all representative and National events were cancelled.

We were also delighted to see a number of our umpires being named in the WBOP Zone Level 1 Development Group for the 2019 - 2020 season, Ella Svendsen, Hana Briggs and Lucy Turner with myself appointed coach. Zone Level 2 Development Group for 2019 - 2020 Amanda Thompson with Pam Clayton appointed coach.

We are extremely fortunate at Harbourside to have a pool of committed umpire coaches who work tirelessly at all our competitions, and became amazing gate people also. I would like to thank WBOP for their support at developing programs to encourage umpires on the pathway.

To the Harbourside board, we as umpires need to say thank you as we always feel very much appreciated and supported within the Harbourside Netball Centre.

In closing I would like to say we have talented young umpires in our Centre which we must continue to develop and support. I look forward to seeing what exciting progress our umpires can achieve in the future.

Zone Umpire Panel – Lynne Clay

HNC is fortunate to have a strong team of talented and committed Zone qualified coaches and assessors and we can now provide coaching and assessment during most netball grade competitions. Our goal is to build a stronger umpire base to cover the higher level competition games.

Despite it being a short season, and many of us being diverted to Covid gate control duties, we were able to coach and assess a significant number of umpires from Harbourside and Whakatane centres; we didn't see any point in delaying endorsements although NNZ agreed to extend the due date of endorsements.

It is always exciting to see a young umpire achieve their Zone qualification for the first time; Gemma Groenwald did so having made rapid progress. There are also a number of umpires who are close to meeting the standard and might have achieved if the season was longer.

We now propose to continue coaching and assessing during the summer league.

There are also a number of talented umpires in the centre who chose not to enrol for coaching or to progress to the Zone level: somehow we need to get these umpires enthused and enrolled early in the next season.

2020 Umpire Achievements

Futureferns 2020

Futureferns Co-ordinator – Wendy Bell

I want to start my report for the most unusual netball season we will probably ever experience in our lifetime, by stating the obvious and acknowledging the amazing work of the true mighty Harbourside Administrators, Board Members, Team Coaches and Managers that supported their teams throughout this unprecedented time.

Year 1 & 2 futureFERNs Netball had 28 teams registered this year up from 17 in 2019.

Year 3 & 4 futureFERNs Netball had 50 teams registered this year up from 47 in 2019.

Year 5 & 6 futureFERNs Netball had 66 teams registered this year up from 42 in 2019.

When our season was officially cancelled for the year for our Year 1-6 teams, it was so disappointing for all our young players and a massive hole was left in our week without having this age group being a part of the Harbourside family face to face. After the frustration and disappointment subsided, we reset and focused on getting as many teams playing within their own school community as possible.

A huge congratulations to our Year 1-6 coaches who managed to continue their teams' season with planned games against other schools each week at different locations around the region. I have enjoyed hearing from coaches about what their teams achieved during this 2020 season.

With the adjustment and the recognition of the unprecedented times, Harbourside Netball reduced the fees on a pro-rata basis for the 2020 season for all our Year 1-6 Netball teams.

We will be looking forward to the 2021 season with this age group. Lots of laughter, tears from falling and cheering family members on the side-line.

Year 7-8 futureFERNs Netball

Year 7 & 8 Netball had 71 teams registered this year down 1 from 2019.

We were able to start the 2020 season with the introduction of the NNZ Year 7&8 Player Development Program. This involved a group of our Community Coaches and approximately 100 players who experienced a range of netball-based activities spread over a 2-day period. We are looking forward to continuing to develop this program in the 2021 season.

During the season, our Year 7 and 8 teams were still able to turn up on a weekly basis to play their netball with additional administrative COVID-19 rules introduced for all teams. No spectators and one coach and a manager were only allowed courtside with the team during game time. For some players, coaches, and spectators it was a challenging time, but we all enjoyed watching a lot of players become mentally

and physically stronger on court. Coaches even enjoyed the space and having their players full attention for the 50 minutes they were on court.

A huge thank you to all the coaches, players, volunteers, supporters, and school coordinators who volunteer their time to ensure this programme is successful. I look forward to seeing you all courtside in 2021.

Coach's Corner

Coach Development Officer NWBOP Zone – Helena Hoult

We are very lucky to have enthusiastic coaches that are willing to take the time to attend the Community Coach Award (CCA) modules to improve, upskill and develop their knowledge in Coaching Netball. CCA1 includes, 3 online and 9 face to face modules, CCA2 includes 2 online and 7 face to face modules. A massive thank you to our coaches, we really appreciate your time and commitment to Netball and the community.

Congratulations to the following people on completing CCA1:

Kerrie Moon

Tania Walters

Kathleen Williamson

Jade Campion

Tia Parker

Congratulations to the following people on completing CCA2:

Tia Parker

Michelle Sicely

TECT Netball Performance Programme Review 2020

TECT Programme Leader – Deb Fuller

It is with pleasure that I present the comments and findings from our TECT Netball Performance Programme. We have reached our goal of making a pathway to pre-elite netball, a reality for Netball players in our area.

With our purpose being to enhance the current netball opportunities in the TECT area for players wanting to extend their netball, it is with immense pride and satisfaction that we can confirm the progression made with the playing groups that have participated in TECT have supported their netball opportunities. This year 2020, we had the most representation for our area with 33 players being named in the Waikato Bay of Plenty Under 16 or Under 18 squad who have spent at least one season in the programme (see names below).

The goal of the programme included the statement – ‘to increase the opportunities in netball for players in the TECT Tauranga area’. We want to optimise the development of a preseason netball specific programme that includes individual conditioning, positional coaching and competition skills that are required to grow individual skills and gain selection for Magic Zone Performance Squads. The quality of the programme content is ensured through delivery by qualified personnel. It is also with pride that we note the gap between High School Premiere teams in Tauranga and High School teams in other areas has closed, for example Mount Maunganui College has beaten former Bay of Plenty Champions Trident High School in pool play and lost by close margins in recent games. As we speak, they are heading to Waikato to compete in a High School tournament at St Peters College, who are the current NZ Champions. This outlines the opportunities our players have to compete with the best schools and to be identified by the Waikato Bay of Plenty Zone. In addition, we invited strong players from out of our area to participate, to lift the intensity, we had Khiarna Williams train with the squad this season who is a current Magic contracted player. This shows the links and connection to the pre-elite pathway is possible and within the capability of the players in our area.

In 2017 players from the Tauranga Zone were underrepresented in the Waikato Bay of Plenty Zone Performance Programmes and school teams struggled to maintain competitive standings at major school competitions. There was a perception that some players have to seek opportunities out of our Tauranga area to further their chances of making higher level squads. With TECT support Netball Players in our area have now had an opportunity to train, learn and be supported if they wish to expand their netball opportunities, the programme is affordable, has quality qualified personnel delivering the content and with recent progress shows it is successful. The movement through the stages is obvious, while

players have come in and out the presence of the programme is key to connecting pathway performance Netball with the greater Tauranga area.

General comments

Thank you to you and TECT for offering this programme to our young players. It is preparing them well for the season ahead and giving them skills to work on over their off-season time.

Thank you so much Deb, for all the time and effort you continue to put in and how you make yourself available and approachable to the girls.

This has been an Awesome experience for my daughter and I to be a part of. We are truly Appreciative and Thankful to you All for your time.

Was such a great year, a shame we got interrupted by Covid and didn't quite get to finish the year off.

From my side of things, I loved being a part of the programme, assisting and providing support for both the players, parents and coaches.

The girls really enjoyed it. By the end there was a great atmosphere, new friends formed, accountability, a supportive attitude towards others, and a work hard ethic.

My daughter's journey has not been the usual road in netball. She has had to fight for a position, and always remember her own value. With the TECT program, she was always welcomed, and reminded there was a place for her, she was worth it, and that pushing hard would pay off. If I had to put it into words, the TECT program is what has held her through good seasons to bad seasons to the downright terrible - all became fodder to be better, fitter, stronger. Everything contributes to forward motion with a TECT program mindset. This program and Debbie's constant encouragement and sense of perspective, has made my daughter the netballer she is, with a mindset that impacts every area of her life, and a growth in tactical skills that enables her to outstrip others on court in a mature manner. TECT program isn't just training the next netball stars, it's training young adults to be fit in mind and body, through highs and injury lows, and to contribute to the world around them in a positive way. I cannot rate this program enough, and it is my sincere hope that this will continue. Thank you.

Compilation Report

Harbourside Netball

For the year ended 30 September 2020

Compilation Report to the Trustees of Harbourside Netball.

Scope

On the basis of information provided and in accordance with Service Engagement Standard 2 Compilation of Financial Information, we have compiled the financial statements of Harbourside Netball for the year ended 30 September 2020.

These statements have been prepared in accordance with the accounting policies described in the Notes to these financial statements.

Responsibilities

The Trustees are solely responsible for the information contained in the financial statements and have determined that the Special Purpose Reporting Framework used is appropriate to meet your needs and for the purpose that the financial statements were prepared.

The financial statements were prepared exclusively for your benefit. We do not accept responsibility to any other person for the contents of the financial statements.

Independence

We have no involvement with Harbourside Netball other than for the preparation of financial statements and management reports and offering advice based on the financial information provided.

Disclaimer

We have compiled these financial statements based on information provided which has not been subject to an audit or review engagement. Accordingly, we do not accept any responsibility for the reliability, accuracy or completeness of the compiled financial information contained in the financial statements. Nor do we accept any liability of any kind whatsoever, including liability by reason of negligence, to any person for losses incurred as a result of placing reliance on these financial statements.

These financial statements have been prepared without conducting an audit or review engagement, and should be read in conjunction with the attached Compilation Report.

Notes to the Financial Statements

Harbourside Netball

For the year ended 30 September 2020

1. Reporting Entity

Harbourside Netball is a trust established by a trust deed and subject to the Trustees Act 1956. Harbourside Netball is engaged in the business of Sports and service to sports - community sport nec.

This special purpose financial report was authorised for issue in accordance with a resolution of trustees dated 29 October 2020.

2. Statement of Accounting Policies

Basis of Preparation

These financial statements have been prepared in accordance with the Special Purpose Framework for use by For-Profit Entities (SPFR for FPEs) published by Chartered Accountants Australia and New Zealand.

The financial statements have been prepared for taxation purposes.

Historical Cost

These financial statements have been prepared on a historical cost basis. The financial statements are presented in New Zealand dollars (NZ\$) and all values are rounded to the nearest NZ\$, except when otherwise indicated.

Changes in Accounting Policies

There have been no changes in accounting policies. Policies have been applied on a consistent basis with those of the previous reporting period.

Revenue Recognition

Revenue is measured at the fair value of the consideration received or receivable for the sale of goods and services, excluding goods and services tax rebates and discounts, to the extent it is probable that the economic benefits will flow to the entity and revenue can be reliably measured.

Sales of services are recognised in the period by reference to the stage of completion of the transaction at the end of the reporting period.

Property, Plant and Equipment and Investment Property

Property, plant and equipment and investment property are stated at historical cost less any accumulated depreciation and impairment losses. Historical cost includes expenditure directly attributable to the acquisition of assets, and includes the cost of replacements that are eligible for capitalisation when these are incurred.

An item of property, plant and equipment or investment property is derecognised upon disposal or when no further future economic benefits are expected from its use or disposal. Any gain or loss arising on derecognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in profit or loss in the year the asset is derecognised.

Upon derecognition, the asset revaluation reserve relating to the asset disposed shall be transferred to retained earnings.

Depreciation

Account	Method	Rate
Buildings	Diminishing Value (100%)	2.5%
Plant & Equipment	Diminishing Value (100%)	0% - 60%

Goods and Services Tax

All amounts are stated exclusive of goods and services tax (GST) except for accounts payable and accounts receivable which are stated inclusive of GST.
