

Kia ora koutou

We have had a number of queries around all our upcoming competitions/programmes/workshops with regard to Covid- 19 safety requirements following the Ministry of Health update.

As of Monday 4th April 11:59pm, Tauranga Netball Centre will no longer require a My Vaccine Pass to participate in any capacity at the Tauranga Netball Centre.

Contact tracing is no longer required.

Masks are encouraged at this time, but not mandatory outside the indoor centre facility

While in **RED** anyone entering the inside facility will need to wear a mask and we will monitor regularly to ensure we do not exceed the 200 gathering limit.

Once we move into **ORANGE** Masks will still be required to be worn inside the facility. Gathering limits inside the facility will no longer need to be managed.

The Tauranga Netball Centre Board and its staff, sincerely thank everyone for their patience and cooperation over the past two seasons and leading into this season. Crossing our fingers that these changes are here to stay as we tentatively move back to normality.

Ngā mihi mahana

Tracy Walters

Centre Manager

Tauranga Netball Centre
